Presidency Message

About a month ago, while serving on my temple shift, I had the opportunity to help a sweet sister through the veil from New Zealand. She was very emotional as she was presented and proceeded through the veil. Not long after, I was walking back to the veil room and passed this same sister, her son and his girlfriend where another temple worker was showing them the direction to the dressing room. As I passed her, I felt the prompting that they would probably love to see more of the temple. I turned around and asked them if they were interested in seeing more of the temple. With tears in her eyes, she hugged me and said, "how did you know?" Her son had just graduated from BYU and she had flown from New Zealand to be with him. She always wanted to see the St George temple and would probably never have the opportunity to come back again. How grateful I was that a split second decision for me to listen to the promptings of the spirit enabled her to have the experience that she had been praying to have in the temple. What a sweet experience that was for me. I pray that we will each day listen to that still small voice that we can be the Lords hands and feet to help and support each other.

I am so grateful for each of you wonderful sisters.

Love Jill Spjut
